

## Intro Letter

*"DoubleCheckMD.com is a unique service that allows anyone to uncover reactions to medications. I see hundreds of new health technologies every year, and get tons of requests to become an advisor. This is the only time when I begged them to let me be an advisor! I've even used DoubleCheckMD.com in the hospital on my laptop, when my wife was having an allergic reaction, and told the nurses which antibiotic to discontinue. DoubleCheckMD.com now allows consumers to check out their treatments as well at their medications - and it is saving lives!"*
